

Wait For Me

KeyWest

I heard somebody new can't stop looking to your big green eyes
That somehow you've moved on and you're strong and he makes you smile
But I never wanted you to fall in love without me
I've got no right to be mad but I'm mad if I don't sign my peace

I hope you remember that boy on the street
I stay in the rain
Hoping you know it's me
But I never wanted to leave
I just do what is best I believe

O angel please wait, wait on me
Angel wait, wait on me
I never wanted to leave
So angel please wait for me

You used to wishper my name to call me back down when I wrap
And you stroked my hair and kissed me on the eyes till asleep
But I just can't breathe that the thought you may love him that way
So now I'm back on your street and I'll sing to you angel this way

I hope you remember that boy on the street
I stay in the rain
Hoping you know it's me
But I never wanted to leave
I just do what is best I believe

O angel please wait, wait on me
Angel wait, wait on me
I never wanted to leave
So angel please wait for me

I've always thought if you were for me you won't pass by
I was the fool who came at your arm and let faith inside
I do what I thought was right

I hope you remember that boy on the street
I stay in the rain
Hoping you know it's me
But I never wanted to leave
I just do what is best I believe

So angel please wait, wait on me
Angel wait, wait on me
I never wanted to leave
So angel please wait for me

I never wanted to leave
So angel wait for me
