

Want You so Bad

KeyWest

I was there when you were not
I stood on the frontline
Tears are running down my face
From bloodshot eyes
I fall like a wild animal
Tryna keep this thing alive
When you took your fangs out of my neck
You left your poison inside

Gimme just one reason
Gimme just a little hope
And I'll be right back in your arms
I know I should forget
Know I should just let you go

I guess it's 'cause I want you so bad
I can't even breathe when you're here
I guess I really need you like air
That's how bad I want you, want you, yeah, oh

Now I'm standing beside you on the edge of the world
Hand in hand, we leave like birds
Until the stars will be free
Now that the clouds are in reach

I can't believe it, just one reason
And just a little hope
I'll be right back in your arms
I know I should forget
Know I should just let you go

I guess it's 'cause I want you so bad
I can't even breathe when you're here
I guess I really need you like air
That's how bad I want you, want you, yeah

Save me now
'Cause I'm falling, falling, I'm falling for you
Save me now
'Cause I can't stop the truth from coming
Save me now
Stop me talking, revealing something
Save me now
'Cause I'm falling

It's all because I want you so bad
I can't even breathe when you're here
I guess I really need you like air
That's how bad I want you
I guess it's 'cause I want you so bad
I can't even breathe when you're here
I guess I really need you like air
That's how bad I want you, want you, want you, yeah
Want you, want you, yeah
I want you, want you, yeah
Want you, want you, yeah
