

Afrosurrealismfortheladies

Keziah Jones

This "Nigerian Science Fiction" is what makes
a difference to the "Obo-Delica"
Afrosurrealismfortheladies?
For the ladies who won't come into the world
Who won't come into the world

Who knows what the "Afro Pioneers" took on the
ships of slavery to America?
Afrosurrealismfortheladies?
For the ladies who won't come into the world
Who won't come into the world

Who knows that science fiction is sentimental
like a state in Africa?
Afrosurrealismfortheladies?
For the ladies who won't come into the world
Who won't come into the world

I'm sentimental like a state in africa
And I'll tell you why we are today invisible
It's because the political is so musical
Does anybody know the way to africa?
