

All I Know

Khalid

Heaven only knows my patience
Heaven only knows I try
I've been running back to basics
To leave this all behind
I never really learnt those lessons
Waiting 'round for a sign
But I'ma go back to basics
To leave this all behind

And what I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
All I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
Faith in you, oh

All I know
Is when the night is getting cold
I need someone to hold on to
Can I put my faith in you?

What I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
All I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
Faith in you, oh

All I know
Is when the night is getting cold
I need someone to hold on to, hold on to, hold on to
Can I put my faith in you, faith in you?

Heaven only knows my patience
Heaven only knows I try
I've been running back to basics
To leave this all behind
I never really learnt those lessons
Waiting 'round for a sign
But I'ma go back to basics
To leave this all behind

And what I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
All I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
Faith in you, oh

All I know
Is when the night is getting cold
I need someone to hold on to, hold on to, hold on to
Can I put my faith in you, faith in you, faith in you?
All I know
Is when the night is getting cold
I need someone to hold on to, hold on to, hold on to
Can I put my faith in you, faith in you?

What I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
All I know
Is when the night gets cold
I need someone to hold on to
Can I put my faith in you?
Faith in you, oh
