

Everything We See

Khalid

Who says there isn't beauty in everything we see?
For what we share, it's true
I know you care for me deeply
I know you do

When I'm with you
I can't deny that I feel safer here
But gravity just brings you right back to the atmosphere

So if you stay counting on me
I'll fight all your demons in the night
If you say, say you won't leave
Eating your heart like parasites
So if you stay counting on me
I'll fight all your demons in the night
If you say, say you won't leave
Eating your heart like parasites

Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah

I have to take a step back
And catch my breath to think about it
You're doing what you want in this life
It's only you deciding
I had a minor setback and took some time to analyze it
You got the love inside you and now it's up for you to find it

With you, I can't deny that I feel safer here
But gravity just brings you right back to the atmosphere

So if you stay counting on me
I'll fight all your demons in the night
If you say, say you won't leave
Eating your heart like parasites
So if you stay counting on me
I'll fight all your demons in the night
If you say, say you won't leave
Eating your heart like parasites

Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah

I have to take a step back
And catch my breath to think about it
