

# Feels

Khalid

It feels like I'm running  
Far away, every day  
I still wanna move in  
Trying hard to find a way back  
Who are these people  
With their ears to the ground  
And I see that they're talking  
But I can't hear a sound

I can't fight this feeling  
And I don't want to change  
Shit I can't fight this feeling  
It's driving me insane  
Tell everyone I'm leaving  
Cause I don't want to stay  
But I can't fight this feeling  
It's driving me insane  
It's driving me insane  
Driving me insane

I stand in the corner  
The walls around are falling down  
And I see that you notice  
But keep your words all to yourself  
We all different people  
But we're together now  
And I know that we're equal  
I'm tryna work this out

I can't fight this feeling  
And I don't want to change  
Yeah, I can't fight this feeling  
It's driving me insane  
Tell everyone I'm leaving  
'Cause I don't want to stay  
Yeah, I can't fight this feeling  
It's driving me insane

And I wonder if I'll ever get away now, away now  
Got me dreaming of the changes that we'll make now

But can't fight this feeling  
And I don't want to change  
Well I can't fight this feeling  
It's driving me insane  
Tell everyone I'm leaving  
Cause I don't want to stay  
But I can't fight this feeling  
It's driving me insane  
Driving me insane  
Driving me insane  
Driving me insane

Driving me insane  
Driving me insane  
Driving me insane
