Impulse

Scandalous
Scandalous
Why is it always us
That fall so hard
Into jaded lust?
Faded love
Don't wanna say too much
But there's something underneath

I'm not overthinking
Trust your intuition
Five minutes, I'm leaving
So tell me you're with it
I know you don't see it yet
But I'm what you're missin'
No wasting time

'Cause I like to be impulsive
Pulling your body closer
Tugging on all your strings
You got just what I need
You like to keep me guessing
Only want your attention
The tension that's in-between
You got just what I need

You got just what I need
Know that I need you
So impulsively
You got just what I need
Know that I need you
So impulsively
So impulsively

And I knew it from the moment
That I saw you that I caught ya
You were dancing with your best friend
At the nightclub you perform at
Like there's no one, no one watching
Like a flower in a garden
I approached ya from the corner
Tell your best friend
That you're going with me tonight

I'm not overthinking
Trust your intuition
Five minutes, I'm leaving
So tell me you're with it
I know you don't see it yet
But I'm what you're missin'
No wasting time

'Cause I like to be impulsive
Pulling your body closer
Tugging on all your strings

You got just what I need
You like to keep me guessing
Only want your attention
The tension that's in-between
You got just what I need

You got just what I need
Know that I need you
So impulsively
You got just what I need
Know that I need you
So impulsively
So impulsively
So impulsively
So impulsively
