

Would you be open
To meeting me here tonight? (To meet me here tonight, to meet me here tonight)

Don't know if it makes sense
At least we give things a try (A try, we'll give things a try)

Would they notice if we're gone way too long? (We're gone, we're gone, we're gone, ah)
But I wouldn't wanna fight it when it's this strong (This strong na, na)

I can feel you look at me look at you
Love the way that you move
We can go friends to lovers
Friends to lovers
Friends to lovers (In an instant)
Only us in this view
Would you mind if I do?
We can go friends to lovers
Friends to lovers
Friends to lovers (In an instant)

If our connection is only just as deep as I know
And is it worth it?
The risk of taking you home
They say that memories fade
I hope that you never change
No matter where this ends
It won't be the same

We've been gone way too long (We're gone, we're gone, we're gone, ah)
I wouldn't fight it if it's this strong (This strong na, na)

I can feel you look at me look at you
Love the way that you move
We can go friends to lovers
Friends to lovers
Friends to lovers (In an instant)
Only us in this view
Would you mind if I do?
We can go friends to lovers
Friends to lovers
Friends to lovers (In an instant)

Put your hand in mine
If I could freeze the time
I'd stay here forever with you (In an instant)
Floating on the floor
Through the corridor
Longing is all I can do (In an instant)

I can feel you look at me look at you
By the way that you move
We can go friends to lovers
Friends to lovers
Friends to lovers (In an instant)
Only us in this view
Would you mind if I do?

We can go friends to lovers
Friends to lovers
Friends to lovers (In an instant)

So meet me here tonight
So meet me here tonight
