Khalid

Oh, both of us in this room
What is a man supposed to do?
When your lips all over me
Medicine, medicine
Both of us in this room
What is a man supposed to do?
Baby, you're my remedy
Medicine, medicine

I don't do any narcotics
Lovesick from breathing your toxins
Want me? Then, baby, you got it
And I'll be yours, yours
They said, "Don't worry 'bout trouble"
They don't know 'bout me and my lover
Down bad and I don't need another, another one

I think we got a situation
The two of our bodies getting too complacent
You got me feeling stimulations I never felt, never felt

Oh, both of us in this room
What is a man supposed to do?
When your lips all over me
Medicine, medicine
Both of us in this room
What is a man supposed to do?
Baby, you're my remedy
Medicine, medicine

I never would guess that I
Would be waiting at your door
I never predicted, oh-ah
So what could you blame me for?

I think we got a situation
The two of our bodies getting too complacent
You got me feeling stimulations I never felt, never felt

Oh, both of us in this room (Both of us in this room)
What is a man supposed to do?
When your lips all over me (Hey)
Medicine, medicine (Medicine)
Both of us in this room
What is a man supposed to do? (What am I supposed to do?)
Baby, you're my remedy
Medicine, medicine (Oh-oh-ah)

Got me feenin' for more
And I can't get away (Can't get away, yeah)
And I need you, yeah (Yeah)
And I need you, yeah (Got me feenin' for more)
And I can't get away (Can't get away, aye)
And I need you, yeah

Oh, both of us in this room, room, room, room
Man supposed to do?

When your lips all over me, me, me, me
Medicine
Both of us in this room, room, roo-roo-roo, room
Supposed to do?
Baby, you're my remedy-dy-dy-dy
Medicine
