

Paradise

Khalid

You go searchin' for paradise
You sit back and close your eyes
Burnin', yet so alive
Now your got your hands up
Hoping you catch the high
Feels like the summer time
Chasin' the Northern Lights
Ooh don't like watchin' your momma cry
You say you'd rather die
She says you're wastin' your life
Oh, well life don't stop the more we pay
All your wrongs from yesterday
Smokin' Himalayan Haze
Won't wash all your sins away

Hey, don't give
Love don't require
All the good times
All the dollars you spend
You been up for nights like this
Don't give into over thinkin'
Pour a drink when it ends

Know you hear me, through your speakers
So much distance, space between us
Say you're dreamin' and vibin' too
No one knows what you've been through
And I've been thinkin' a little deeper
Contemplation gettin' cleaned up
See no leaders, need more teachers
I'm in shambles, I don't sleep much
I don't stop the more we pray
All your wrongs from yesterday
Smokin' Himalayan Haze
Won't wash all your sins away

Hey, don't give
Love don't require
All the good times
All the dollars you spend
You been up for nights like this
Don't give into over thinkin'
Pour a drink when it ends
