

Passionate

Khalid

Yeah, yeah, yeah
Okay
Okay
Yeah, yeah, yeah

We were onto something back then
Treated you carefully
I gave you honesty, gave you all of me
Gave you everything, everything
Wouldn't wanna wait in the end
But you're tempting me
Are you just using me
Then when you're through with me leave me for dead?

Can we keep it passionate?
'Cause I can't believe where our passion went
Give a little more before you choose to walk out that door
Let's get passionate

You don't gotta worry 'bout all your friends in your ear
You don't gotta worry now, make those thoughts disappear
Need you to cherish me, nothing compares to me holding you near, near
We were onto something back then
Now you're killing me
Look what you did to me
You get rid of me and then I'm gone
Then I'm gone, oh, I

Can we keep it passionate?
'Cause I can't believe where our passion went
Give a little more before you choose to walk out that door
Before you choose to walk
Let's get passionate, passionate

Can we keep it passionate?
'Cause I can't believe where our passion went
Give a little more before you choose to walk out that door
Before you choose to walk
Before you choose to walk out the door

I only want the chance to take you home
Make a place outside on the stairs
Where I sit in my own despair
Where I sit in my own despair

Can we keep it passionate?
'Cause I can't believe where our passion went
Give a little more before you choose to walk out that door
Before you choose to walk out that door
Let's get passionate
Oh
Can we keep it passionate?
Yeah
'Cause I can't believe where our passion went
Give a little more before you choose to walk out that door
Oh, before you choose to walk out that door
Out that door

Yeah
