

Sincere

Khalid

Tell me what I mean to you
My fingertips are black and blue
I'm holding on to your heart
But it's cold, and now I'm frozen

Don't know what I bring to you
I wonder what you see in me
There's nowhere left I can go
'Cause our chapter is closing

I turn around
Hear your voice in the wind and it calls me
But I don't exist to you
I know my place, and you're fading away
I'm so sorry

Are you sincere? Oh
Are you sincere when you tell me that you want me?
Don't want nobody but me
Sincere, oh
Are you sincere when you tell me that you care for me?
Do I tread carefully now?

It's like I'm losing myself
Fill me with doubt
While I bare my wounds
You say you're leaving me
Who's there to help?
I'm lost in this cloud
Like I'm gasping for air
And there's no relief for me

I turn around
Hear your voice in the wind and it calls me
But I don't exist to you
I know my place, and you're fading away
I'm so sorry, I'm sorry

Are you sincere? Oh
Are you sincere when you tell me that you want me?
Don't want nobody but me
Sincere, oh
Are you sincere when you tell me that you care for me?

Now I've got nobody
Now I've got nobody
Now I've got nobody
Now I've got nobody

Now I've got nobody
Now I've got nobody
Now I've got nobody
Now I've got nobody
