

A Day Wit Me

Khontkar

[Hook : Bixi Blake] (2x)

Come spend a day with me

In the hood

Feel the pain

Own the game

Come spend a day with me

Feels so good

Make it rain

Money gives you fame

I wanna fly, flow in the wind

But all I got is a couple of broken wings

Can you feel me it's deep shit

I'm rollin' in a deep trip

Tell me yo secrets, I promise Imma keep it

Deal with it we the best

We the RedKeyGang b*tch fuck the rest

This is RKG and we got RPGs ain't got no peace only got OG's

Que paso? que paso? que paso?

Got a 45 I'm on my MurciÈlago

Ridin' to chicago my homz are chicanos

I don't know whatchu doin' but I act like I know

You got a fancy world keep play around dance with fancy girls

Dream's life listen them lovely birds

One day you may hear some nasty words, B*tch

Wake up, str8 up, get up, realize mano truth hurts I'm fed up

Yeen got no risk ease yo mind

You got sophisticated fake life stories

Now lemme take you to a last ride

We're only 2 but it feels like fast five

Have another best night, one last time

Test mic ready for the best fight

Baby boy you don't know even know where I came from

You don't even know what I been through

You don't know even know what I did for my life

I grew by myself I lived in a room

There is no kitchen and bathroom

My mom washed me front of my house

Free my father free my brothers

Knowin' the struggle yeah fuck your kindness

Give my pistols girl we huntin' dramas

You trapped in my trap now you seein' dragons

I'm tellin' stories bout whole hood life

My dreams overseas I wanna make it

I'm chasin the money don't come up to my way

Better you run up

Big rats on my couch, I killed them with my mouth
I saw every dumb shit, I learned from the goat
It's dead on my block, It's still on the top
We carryin big guns, don't get in the fight
My dad locked up for beatin' them cops
We fuck all the cops, it's hood code you dumb
Gun sparks any time ,better ready get down
Cuz bullets on the side, Its day in my life
