

## Attention.

Kiana Ledé

I complain  
Throwing shade  
Day to day  
I'm acting up  
Feel a way  
Only way  
How to make my guard stay up

'cause if I let my feelings out  
It's my luck that I'll bore ya  
I'm tryna keep you around  
From walkin' out on me

No there ain't no way  
I can't you let you win  
There could be no reason  
Ain't nothing that you did  
I'm always up for war  
I'm just making shit up  
Cause even if we're fighting  
At least you paying attention

Hurts more to have to hear it than say goodbye  
Put it off and I paid the price

'cause if I let my feelings out  
It's my luck that I'll bore ya  
I'm tryna keep you around  
Don't go walkin' out on me

No there ain't no way  
I can't you let you win  
There could be no reason  
Ain't nothing that you did  
I'm always up for war  
I'm just making shit up  
Cause even if we're fighting  
At least you paying attention

At least you paying attention

If you know bout me  
That's what loving means  
Gotta pick a fight  
To take up your time

I'm talkin back  
Cause that's all I have  
To make sure that  
I'm in the front of your mind

Ain't no other way, ain't no other way  
Can't keep it easy breezy  
Ain't no other way, ain't no other way  
I know that you love me and it be savin us  
Ain't no other way, ain't no other way  
I'm savin us

No there ain't no way  
I can't you let you win  
There could be no reason  
Ain't nothing that you did  
I'm always up for war  
I'm just making shit up  
Cause even if we're fighting  
At least you paying attention

Ain't no other way, ain't no other play  
Ain't no other way, no it ain't no other way to  
Ain't no other way, ain't no other play  
Ain't no other way, no it ain't no other way to
