

Closure

Kiana Ledé

A lot of shit has happened to me in the past year
A broken heart, anxiety, and ocean tears
But
I been feeling better each day
Overcoming all my pain
Close to saying I'm okay
A little more and more everyday, but I
Came so far from where I began, so it just takes time
But it will get better

Learning to let go, oh
I gotta let it close, when one door opens
For my peace of mind
Let it go, oh
I gotta say it's over, get that closure
For my peace of mind

I had to learn to be alone and get out my head
Get to know the true me all alone in my bed, yeah
Take a look in the mirror like you that bitch
If I had you and lost you, I'd be sick
And even when things ain't going right
Take a breather, baby girl, 'cause it's all right

Learning to let go, oh
I gotta let it close, when one door opens
For my peace of mind
Let it go, oh
I gotta say it's over, get that closure
For my peace of mind

I gotta say that
Get that
For my peace of mind
