Get in the Way

Kiana Ledé

Why do I keep doing this? Damn
Talking to myself like "Now, what's the play"?
Kiki this is bullshit, damn
You know you ain't new to this
Make the same mistakes

All we do is fuck then regret it
Fuck and forget it
I won't let it get like that
Every little thing that you say
I put to rest, I ain't gonna get like that

I can't let this love get in the way, get in the way, get in the way, get in
 the way, get in the way, get in the way
I can't let this love get in the way, get in the way, get in the way, get in
 the way, get in the way, get in the way
Every time that we exchange in conversation I won't listen to a thing that y
ou've got to say
Always telling me you want me that you need me saying you ain't running game
s, you ain't tryna play

Anyway I'm on a different wave
I got people to see, you know I got places to go
I ain't even really tripping
I'm just letting you know
We gotta stop running in circles, start letting it go

All we do is fuck then regret it
Fuck and forget it
I won't let it get like that
Every single thing that you say
I put to rest, I ain't going to get like that

I can't let this love get in the way, get in the way, get in the way, get in
 the way, get in the way, get in the way
I can't let this love get in the way, get in the way, get in the way, get in
 the way, get in the way, get in the way

Nah, now we're doin' this again like I knew we would
Got me fucking up my plans, knowing that I shouldn't
Take a minute, take a second just to think it through
And I know I could do better but trust me
It's not my fault I can't leave it alone
Trying my hardest but it ain't easy at all
Everyday we say exchange in conversation
Then I know that this is it we won't ever change

'Cause all we do is fuck then regret it
Fuck and forget it
I won't let it get like that
Every single thing that you say
I put to rest, I ain't gonna get like that

I can't let this love get in the way, get in the way, get in the way, get in
 the way, get in the way, get in the way
I can't let this love get in the way, get in the way, get in the way, get in
 the way, get in the way, get in the way

Nah
