Protection.

Kiana Ledé

Weight on my shoulders
I can bear it all
But When I'm trippin
Know You'll break my fall

I get so distant
Sometimes
I don't call
You try to fix it
I Put up a guard

I be dramatic
Life is traumatic
I'm on the valley
It's in the nighttime
Minding my business
All of a sudden
My daddy issues
Be coming from nothin
And it's sad that
You wanna grab me
And I wouldn't let you
That I shouldn't attack you
You wanna help me you know all about me
I know that you got me
I know that we solid

Protection
You give me protection
When I need direction
Protection
Protection

It takes one to know one babe
It takes two to get somewhere
It takes three to strike out then
On take four we try again

You see when I'm drownin
We sit down and you dive in
You know all of my secrets
And I hate it

'Cause I be dramatic
Life is traumatic
I'm on the valley
It's in the nighttime
Minding my business
All of a sudden
My daddy issues
Be coming from nothin
And it's sad that
You wanna grab me
And I wouldn't let you
That I shouldn't attack you
You wanna help me
You know all about me

I know that you got me
I know that we solid

Protection
You give me protection
When I need direction
Protection
Protection

When I like to
Forget I'm see-through
I try to hide out
You always find out

And when I'm way down
You're my safe house
We built from the ground
Guess I'm Home now

Protection
You give me protection
When I need direction
Protection
