Focus on me baby, show me show me that it's real
Focus on me baby, show me show me that it's real
Focus on me baby, show me show me that it's real
Show me that it's real, show me show me that it's real

It's three in the morning, late night scrolling
Looking like I'm PI, peeping other girls you like, I
Went through her photos, so she a model, uh
See now you playing with my pride, hurt too much, I can't lie

That's what you like, ain't it? I mean let's face it
You like the ones with them, them perfect faces
Am I enough for you? 'Cause you been tapping
Aaliyah and Keisha when really I need ya to

Focus on me, focus on me
I need to see ya, see that energy, so
Focus on me, yeah yeah, focus on me, uh
If I'm all you want baby, make me believe it

Focus on me baby, show me show me that it's real
Focus on me baby, show me show me that it's real
Focus on me baby, show me show me that it's real
Show me that it's real, show me show me that it's real

You don't even want it, I can see it on your face
See it on your page, you ain't gotta say it
It's breaking me down, how am I supposed to feel?
So baby speak now, if the love we got is real 'cause

That's what you like, ain't it? I mean let's face it
You like the ones with them, them perfect faces
Am I enough for you? 'Cause you been tapping
Alisha and Toya when you know I want ya to

Focus on me, focus on me
I need to see ya, see that energy, so
Focus on me, yeah yeah, focus on me, uh
If I'm all you want baby, make me believe it

Focus on me baby, show me show me that it's real
Focus on me baby, show me show me that it's real
Focus on me baby, show me show me that it's real
Show me that it's real, show me show me that it's real

Just focus on me
Just focus on me
Focus on me
Just focus on me
Just focus on me
