Too Far

Kiana Ledé

We were cool
We were close
Lines we would never cross
Platonic lies we told

We were friends
Good intent
Till you hopped in my bed
And we did it again
Again and again

Once you seen me naked
All them rules was broken
Broken limitations
Once you had me soakin'
Forbidden fruit we tasted
Now we can't erase it
To be honest, I
I think that we went

Too far too deep to turn back
We went
Too far too deep to turn back
Wrapped up in your sheets
You on top of me
Testin' all the waters, sink in
I think we went
Too far too deep to turn back

And I'd be lying if I said I regret it but I don't
I loved every minute
Love when you in it
Who knew that good dick come from a friendship, yeah?
I'm back in your bed
Got me cummin' again and again
And again and again
But then again

Once we started kissin'
Everything was different
Call each other, slippin'
Once you had me drippin'
Caught up in them feelings
Thought I was mistaken
But now I know
I know that we went

Too far too deep to turn back
We went
Too far too deep to turn back
Wrapped up in these your sheets
You on top of me
Testin' all the waters, sink in
I think we went
Too far too deep to turn back
