Too Many Strings

Kiana Ledé

Somethings just can't be undone
Another sheep with you, got too much invested to run
Tell me who gon' ring my bell
When I did this to myself?
Oh, yeah

Started off as a fling
Turned into a flame
Never thought it could be
Something I would give all my time to
And now it kills me to love you

And honestly it's just too many strings
To be caught up in your once in your knees
It's better if we
Cut it up before we get in too deep
Feelings got involved from the start
We went way too far to cut it off
Too many strings
When you turn up, it's not simple to leave
It's too many strings

Back to you like a yo-yo
Let you go then come back for me
Might as well be a rodeo
Ride so hard that I lose control
I don't ask for much
Shouldn't be this hard to keep it up
Uh

Started off as a fling
Turned into a flame
Never thought it could be
Something I would give all my time to (Time to, time to)
And now it kills me to love you

And honestly it's just too many strings
To be caught up in your once in your knees
It's better if we (We)
Cut it up before we get in too deep
Feelings got involved from the start
We went way too far to cut it off
Too many strings
When you turn up, it's not simple to leave
There's too many strings
