

## U Can't Remember

Kiana Ledé

We used to stay up late  
Night to day  
Give you all my time  
And now you talkin' 'bout space  
It's always right 'til it goes wrong  
And the suffers when you get gone

Don't say you fell for me, conveniently  
So many reasons to choose me

But if you can't remember  
There's nothing left to say  
But if you can't remember  
Then I'll be on my way  
All you put me through  
Did you forget that too?  
So act like you can't remember  
Then that's a shame, I ain't gon' wait

Gotta have it your way  
So I stay in my place  
Only play your tune  
Only singin' your praise  
Put a pause on my mental health  
And I stopped thinkin' for myself

Don't say you fell for me, conveniently  
When it's the reason you choose me

But if you can't remember (Ooh)  
There's nothing left to say  
But if you can't remember  
Then I'll be on my way  
All you put me through  
Did you forget that too?  
So act like you can't remember (Remember)  
Then that's a shame, I ain't gon' wait
