

# Weakness

Kiana Ledé

Think I gotta have it, what am I supposed to do?  
Every night I need a double dose of you  
Hit it once, you got me stuck just like some glue  
Boy, you got that good, automatic  
Like that shit that turn you into an addict

How you do it to me, every night we in that ooh-eeh  
Pull up on me lookin' dangerous  
You know I can never handle it  
You know what you doin', every time I fall into it  
Make me lose all control

Something I just can't shake  
Might be my best mistake  
And, boy, I just need a little taste  
'Cause as long as I'm breathing  
You'll be my weakness

And every time you come around  
I swear all I do is think about it  
(Five fingers, put a finger inside)  
Did I mention how you look at me when you in deep?  
Puttin' me to sleep, oh, yeah  
I can't even feel my legs

You see every time you in that ooh-eeh  
Damn, you know that shit is dangerous  
You know I can never handle it  
You know what you doin', every time we fall into it  
Make me lose all control

Something I just can't shake  
Might be my best mistake  
And, boy, I just need a little taste  
'Cause as long as I'm breathing  
You'll be my weakness

Just can't shake  
Might be my best mistake  
And, boy, I just need a little taste  
'Cause as long as I'm breathing
