

# Wicked Games

Kiana Ledé

You love to be a trouble maker  
Leaving now then fuck me later  
It's always later later later later  
And I let you come back 'cause sticking 'round is in my nature  
And tolerating bad behaviour  
You know that I do that  
You love that I do that

You, you know my weaknesses  
You banking a break of my rules  
Yes you take advantage, know how to manage my whole fucking planet

You've been playing wicked games  
You know what to do to me  
I tried to stay steady  
I'ma leave but you try to make me misbehave  
Fucking up my energy  
One day I'll be over all them wicked games, yeah

Always show up when I'm fiending  
And in the moment it's appealing  
But you're so good disappearing  
And I'm just so bad at the truth

You know my weaknesses  
You banking a break of my rules  
Yes you take advantage, know how to manage my whole fucking planet

You've been playing wicked games  
You know what to do to me  
I tried to stay steady  
I'ma leave but you try to make me misbehave  
Fucking up my energy  
One day I'll be over all them wicked games, yeah yeah yeah

I keep holding on, I keep holding on  
Wonder who you are without all the games, yeah yeah yeah  
I keep holding on, I keep holding on  
Wonder who you are without all them games, yeah  
I keep holding on, I keep holding on  
Wonder who you are without all the games  
I keep holding on, I keep holding on  
Wonder who you are without all them games

You've been playing wicked games  
You know what to do to me  
I tried to stay steady  
I'ma leave but you try to make me misbehave  
Fucking up my energy  
One day I'll be over all them wicked games, yeah yeah
