East side, east side
East side, east side
So many bands inside my, my eyes
East side, east side

Lately I've been servin' J's
Lean flippin', water whippin', syrup sippin'
My bitch trappin', never trippin'
At the condo, move away
Postman just left the trap, got me afraid
Cause you know it came from public housing, section eight
Had to get my mom up out the hood, so I hit Padre
Told him I need dinner plates
New [?] got dealer plates
East side got my pockets straight
East side got my pockets straight
Everyday, get that gwalla when I wake

Fuck up the block, bitch I made a band today
Fuck up the block, bitch I made a band today

East side, east side
East side, east side
So many bands inside my, my eyes
East side, east side

This for all my trap niggas servin' major waves
Always get it out the country, you just get it out the state
East side where my gwalla stay
You don't got your bands in the safe
Broke boy, get up out my face
Broke boy, get up out my face
Yeah, just get out my face, and get on my level
Yeah, don't believe me, ask your bitch, I bet she can tell you
Got powder, got molly, got lean, out the seal too
We sellin' the islands, got keys [?]
[?], she text me when she through
Paper back money, it come, like Chinese food
Jamaica, Bahama, Japan
I check the trackin' to see if it land
I go to the east side to scoop up a grand

East side, east side
East side, east side
So many bands inside my, my eyes

East side, east side
