

Trust Issues

Kid Buu

It's not you, it's me
I know that sounds like a cliché
Only come around at night
Means I don't get the time of day
And I sleep with all my ice
It keeps the feelings frozed away
Trust issues on my mind
The shit I deal with everyday

Trust issues
Trust issues
Trust issues
Trust issues
I don't mean to diss you
Trust issues
I got trust issues
Trust issues

I'm just a paranoid lover, swear it's probably in my head love
Admit that shit has got me fed up, (yeah)
I had to go and make my mind up
Fuck love - get your bread up
I'm just a young rich nigga on the road I'm gettin' money now
My ex mad - actin' funny now
Used to be my sweet heart
Now she's bitter heart
Left her in the dark
My diamonds shine in the dark
Bitch, don't give a fuck now
Countin' up my bucks now
On tour live it up now
Get top on my tour bus now
Sauce it up, act all rough, flicks on what?
Know I'm selfish, that's fucked up
Bitch, so what?

It's not you, it's me
I know that sounds like a cliché
Only come around at night
Means I don't get the time of day
And I sleep with all my ice
It keeps the feelings frozed away
Trust issues on my mind
That's shit I deal with everyday

Trust issues
Trust issues
Trust issues
Trust issues
I don't mean to diss you
Trust issues
I got trust issues
Trust issues

Trust issues
Trust issues
Trust issues

Trust issues
I don't mean to diss you
Trust issues
I got trust issues
Trust issues, issues
