Do it all day for the kiddies (Yeah)
Real life dreamers in the suburbs and the cities (Come on)
Ridin' 'round town, windows up, steamin', beamin' (Yeah)
Sing along to it in the dirt, have you streamin' (Yeah)
Momma don't know what a lil' nigga feelin' (Uh-huh)
Daddy been gone, all my brothers stay trippin' (Uh)
All for every lil' homie that's lonely
This is all for you, give a fuck about the phony (Yeah)
All in the plan, as you grow, make the moments last (Huh)
Even though life can seem like shit, it's moves fast
Code to the realest, hands high, feel this (Yeah)
Spoken to the head, but remember, shit's vicious (Come on)
Never lose help, if you don't, leave you golden (Yeah)
Always keep your family close, keep your heart open
Here's to the chosen, solo dolo rollin' (Hm)

This is just a right vibe, turn it loud if you need to
Stars in the sky, they will light your way through
Feelin' alone, just know you are not
We won't leave you alone, uh-uh
This is just a right vibe, turn it loud if you need to
Stars in the sky, they will light your way through
Feelin' alone, just know you are not
We won't leave you alone, uh-uh

Since day one, I been drillin' for life
I be doin' what I want, go fast and roll tires
Seein' what I'm sayin', the pain, it won't ride (Yeah)
Ooh, we're chosen in the night (Come on)
Speaking' of a vision that be comin' to fruition (Yeah)
Yeah, no, whole world dreamin', intermission
Now things are gettin' better with my whole life
Oh, my, my, my, my (Yeah)
I speak loud through the streets
This is just a moment where you dream and feel free
Kept my foot up to the habits (Ah), tell 'em not to worry (Ah)
Don't gotta buy the moon, I'm doin' what I do (Yeah)
Everything's up, instead, I push the limit (Uh-huh)
I been in this cell so long
I know soon (Yeah), peace will find you (Yeah)

This is just a right vibe
Stars in the sky
Feelin' alone, just know you are not
We won't leave you alone, uh-uh

This is just a right vibe, turn it loud if you need to
Stars in the sky, they will light your way through
Feelin' alone, just know you are not

We won't leave you alone, uh-uh
This is just a right vibe, turn it loud if you need to
Stars in the sky, they will light your way through
Feelin' alone, just know you are not
We won't leave you alone, uh-uh
