

# Ashes

Kid Cudi

Send me your prayer  
Forget the memories  
Thought you would notice  
The day I walked away

I needed your hand  
Needed your heart  
For us

Ashes to ash  
Dust to dust

Step into the light  
Tell me if you're warm in here  
Dancing in fire  
Smoke in the atmosphere  
My love is golden  
You're breaking and entering  
I wish you would lie  
Tell me we still mean something

Spare me your prayer  
Farewell to us

Ashes to ash  
Dust to dust
