

Deep Diving

Kid Cudi

It ain't love without honesty
No trust, no loyalty
Can't stop when I need you now
Push through, it'll settle down
It's hard, yeah, I'll give you that
But it's harder to get it back

Hold on, think we got a chance, don't let it go
Don't let the fear talk you out of love
Two hearts locked in, and we got the key
You know that I need you next to me
It's too real, can't call it a fantasy
Don't fight it, don't fight it 'cause you know you need me that bad
And I need you like that

No running, no hiding
Don't you get sick of lying?
No secrets, don't fight it
We're already deep diving
It's too late to be shy about it
You'll die without it, no secrets to deny it
We're already deep diving

I want to try, I want to see
I need to know what it could be
I've had enough of no love
It's too much to start over
So jump in with me
We might never leave
So let's leave the world we both know behind

Hold on, think we got a chance, don't let it go
Don't let the fear talk you out of love
Two hearts locked in, and we got the key
You know that I need you next to me
It's too real, can't call it a fantasy
Don't fight it, don't fight it 'cause you know you need me that bad
And I need you like that

No running, no hiding
Don't you get sick of lying?
No secrets, don't fight it
We're already deep diving
It's too late to be shy about it
You'll die without it, no secrets to deny it
We're already deep diving
