

ROUND N ROUND

Kid Cudi

It's something goin' on
Something happenin'
I don't know what
Through the universe, it seems to me the sweetest song
To the end just hear them sing along, la-la-la
Woah-woah
I been walkin' on this crust for days in my dreams
Sorry, but I'm not the best, not me, I'm free
Someone told me nigga Scott want some more
Catch me slippin', she got my love, oh
Nah-nah, nah-nah, nah-nah, woah-woah-woah

They say, "How this cool a nigga always shut shit down?"
She sings my song
She makes me feel like I'm her one and only
This life right, round and round
It's fuckin' crazy, things been groovy lately
Follow my advice, won't steer you wrong
Such a grinder, such a hero, baby
Round and round, say, "Round and round"
Say, "Round and round"
Say, "Round and round"
Say, "Round and round" (Round, yeah)

I'm tired of pressure
Tired of pressure
[?] in her
I know there's love in the air
I share 'cause I feel it with her
Where you find me the same place you lost yourself
Can't buy love, can't buy help
Let me do your thighs, let me swim to your brain
Michael Phelps, I can help
Think of all the times no one knew who I was, but you did, yes you did
I can never repay for all the memories I replay
You made it easy
My diamond district baby, you shine too crazy
This is for my lady, you amaze me
I need you never to change

They say, "How this cool a nigga always shut shit down?"
She sings my song
She makes me feel like I'm her one and only
This life right, round and round
It's fuckin' crazy, things been groovy lately
Follow my advice, won't see you 'round
Such a grinder, such a hero, baby
Round and round, say, "Round and round"
Say, "Round and round"
Say, "Round and round"
