

# Satellite Flight

Kid Cudi

And the story goes, a young man will come and  
Save the universe from the forces of evil...

Take a second to adjust to the ride  
They say if this was a crime, it'd be federal  
Lately  
I've been feelin' invincible as I'm tryna find my way can't nothing hold me  
though  
I say  
Get a clue  
The vibes all around you  
Try but you can't deny when it's in your soul  
Let's take it where there aren't any roads  
Where these sucka hatin' niggas can't follow

Take it to the satellite, tonight  
Take flight to the moon  
Come get in my space whip!  
To the satellite, tonight  
Take flight to the moon  
Take a ride!

No worries (4x)

Come on don't be shy  
Let your guard down and work it  
Do just what you want  
Anything you choose  
I tell ya, there's no way we could lose  
Have you ever seen the Earth from this view?  
I bet not

Take it to the satellite, tonight  
Take flight to the moon  
Come get in my space whip!  
To the satellite, tonight  
Take flight to the moon  
Take a ride!

Take a ride! (3x)

And now, the vibes  
Heavy little thoughts get jumbled in a bundle  
And their tucked deep down in the back of my brain  
Heavy little thoughts get jumbled in a bundle  
And their tucked deep down in the back of my brain  
Heavy little thoughts get jumbled in a bundle  
And their tucked deep down in the back of my brain  
All is life and all is pain  
Down the hallway of my endless fate

Take it to the satellite, tonight  
Take flight to the moon  
Come get in my space whip!  
To the satellite, tonight  
Take flight to the moon  
Take a ride!

(2x)

Take a ride!  
Come on, yea  
Come on, dream on

Come on  
Come on  
Dream on  
No worries

Wicked!
