

# The Void

Kid Cudi

Na-na, hmm

Na-na, hmm

I will fall in the void, fall in the void just to avoid  
Anything that can bring me down or fuck with my flow  
Fall in the void (The void)  
Fall in the void (The void)  
I will fall in the void, fall in the void just to avoid  
Anything that can bring me down or fuck with my flow  
Fall in the void (The void)  
Fall in the void (The void)

Hey, oh, need to free my mind, ah, yeah  
This is a little ritual of mine as I head home  
Head up high, get some  
Hello, sailin' by, nah-nah  
Say, oh, been dead and alive, don't know  
Let go, they say I'll survive  
If you say so, please don't lie  
My days are low, I'll give it a try, hey  
See new things in my soul  
When I'm just sittin' in my room all alone  
This is the real, it's how I roll  
Tell my friends and folks that I'm on a ride, don't know when I'm comin' home  
e  
Things might change, but I'm cool with it  
Flyin' higher than I've ever been, I see the world just as it is  
Please hear me, no, no, no, I cannot wait (No, no)  
As we climb, I'm soarin'

I will fall in the void, fall in the void just to avoid (Woah)  
Anything that can bring me down or fuck with my flow  
Fall in the void (The void, mmm, yeah)  
Fall in the void (The void, fall in the void)  
I will fall in the void, fall in the void just to avoid (Woah)  
Anything that can bring me down or fuck with my flow  
Fall in the void (The void, mmm)  
Fall in the void (The void, bring me, ooh)

Oh

See ya, never have I flown so high  
Feel a feeling takin' over, goodbye (Ooh)  
Be just what you need to be, let's go (Ooh)  
Everything is all on me, don't count me out (Yo)  
These nights, they save him from my hellhole  
When it's dark and my heartbeat echoes  
Yeah, that's just what I love, ooh  
Heaven ain't too far now  
Show me what I don't know (What I don't know)  
Imagine these things so simple, break the code  
'Round and 'round, my mind is thrown  
Prayin' I overdose on this love, it got me flyin', I'm headed home (Hey)  
And I'm thinkin' I be dreamin', lights are gleamin'  
God watchin', haters plottin', but I can't be focused on that  
Here it goes, this the part, I cannot wait  
Don't ask why

I'm soarin'

I will fall in the void, fall in the void just to avoid  
Anything that can bring me down or fuck with my flow  
Fall in the void (The void)  
Fall in the void (The void, fall in the void)  
I will fall in the void, fall in the void just to avoid (Woah)  
Anything that can bring me down or fuck with my flow  
Fall in the void (The void, mmm-mmm, no, no)  
Fall in the void (The void, come, baby, oh)

Oh, no, no

Oh, God, oh, God, thank You  
You've been in my dreams, you've been in my dreams  
Oh, I'm just trying to be the best man I can be, mmm-mmm  
Thank you for listening  
Thank you for never leaving me  
It's gon' be okay  
It's gon' be okay  
I promise you  
I promise you
