

## X & CUD

Kid Cudi

The pain in my heart just won't end  
The words that I find just don't seem to compare  
Awaiting my death in the end  
Alone, I must seek out the end to begin

Mine is the maze thinkin' 'bout what I can't change  
Devil's on my head and I don't want to worry, my friends  
They told me, "Say something," don't think they understand  
I'ma choose the goods with my daddy left wounded, amend  
Livin' out a life surrounded by lines, I try, I know  
Sayin' "Goodbye", but you stuck in my mind, the sun went away,  
oh  
Haven't seen the hoes I tried, burn this blunt of mine, oh, with teary eyes  
Search and you will find you, yeah, ay-oh

So nobody wants death  
'Cause nobody wants life to end  
I'm the only one stressed  
And the only one tired of having fake friends  
Faced my fears  
Can't keep love at all

Willy coward? Never, ever, Cleveland City  
Born a grinder, watch him rippin', can't stop him  
Came in filthy, double "R". What? Rappin' for him  
Keep the flow up, bumpin' camp low, a color genie  
Born in greedy city, this nigga had his weedies on  
Runnin' my mission up, and God, hella that  
Them niggas lunchin', dawg, don't care about y'all  
See, I'm off and I'm finished, so I'm goin' high up  
You can't tell me nothin', you could never  
In my Varsity sleeves leather, know I'll do it better  
And it stings, it seems, proper bummy ever leaves  
So I just need my blunt and my gun to cuddle and love  
I'm done with the deal, got Nikes back on my heels  
Call up my nigga, see you while tourin', pack up, we kill  
And it's pictures on Reels, we get to poppin' them pills  
You see they jockin' 'em still, nigga, I'm doin' it ill
