

(I-I-ISM)

I know ain't nothin' for free
Hunnids on me 'cause it's just where I belong
I put a couple of G's up on they feet 'cause it's just where they belong
I told them girls they can leave back to the street 'cause it's just where they belong
Now we need trophy ring, baby, I'm bringing it home
I put that shit on the fronter line, watchin' me ballin' from courtside
Now that we been up the whole night, dreamin' about my whole life
They try more fight for no reason, watch how I smoke 'em, they reup
Why they act like they don't see us now that we takin' the season?

Came in this bitch on my own way, I reinvent it my own way
Flippin' and triple the whole thing, I bet you fuck up the whole play
I play this shit like I first see, name on the back of the Jersey
Rippin' these rappers like Hershey, I bet they prayin' to curse me
Lord knows, kickin' the diamonds, the door close
I just thunder this shit for sure, city on back of my torso
Tatted from top to the bottom, look like a problem that nobody solvin'
Niggas is failing and falling, I caught up, how I say get up my tote and my
[?]

Battles of gangin', you see where it's goin'
Lot of shit right up the pot like I'm knowin'
Wait on, I'm better, say niggas ain't know it
Made us some millions right under they noses
Rack up shit, shawty, I'm never gon' change
What it's gon' take to get rid of these lanes?
Take it, I wanted the name of the game
Can't run away 'cause it run in my veins

I know ain't nothin' for free
Hunnids on me 'cause it's just where I belong
I put a couple of G's up on they feet 'cause it's just where they belong
I told them girls they can leave back to the street 'cause it's just where they belong
Now we need trophy ring, baby, I'm bringing it home
Now that we been up the whole night, dreamin' about my whole life
They try more fight for no reason, watch how I smoke 'em, they reup
Why they act like they don't see us now that we takin' the season?

MJ, 3P, this show, let's dance
Came in the [?] program, nigga, you never had no chance
And now I'm catchin' my own vibe, you can't deny that the flow fire
I'm loaded up like a 45, got it more poppin' at your side
God is my witness, watch I handle my business
Thought I was finished, later go hard but no feelings, I took that shit to the chest and it made me a menace
Lately been goin' the same, can't take me out of the game
Just play me my minutes, came out to turn on a vision
Hands to the ceilin', let's get it
I know ain't nothin' for free
Money is all that they want
Mostly you niggas would sweet fail
Like I ain't slappin', I'm on
Blow one to the spotlight
Nigga will do this shit part time

Young fly nigga, let shock line
No, I can't wait, bitch, I'm outside

I know ain't nothin' for free
Hunnids on me 'cause it's just where I belong
I put a couple of G's up on they feet 'cause it's just where they belong
I told them girls they can leave back to the street 'cause it's just where t
hey belong
Now we need trophy ring, baby, I'm bringing it home
Now that we been up the whole night, dreamin' about my whole life
