Oh, oh, oh

Know the night get real  
Belle Route on chill  
Leave them lips concealed  
Let me take the wheel  
You made it through the traffic  
Could tell you more than average  
Live the life that's lavish  
Yeah, said you on one  
I want some  
Don't play dumb  
No clothes on  
Just Fenty  
Don't tempt me (Oh, oh)

Yeah  
It's 'bout that time that we should slide, just let me drive, I know you worth  
Just roll up and hit that blunt, I put you first, first, first  
Got that WAP, I know your worth  
Lick them lips and watch your work  
On the way, I got that playlist, make you twerk, twerk, twerk  
It's on my mind, it's so polluted  
Dirty talkin', I need proof  
Hit the block and take a loop  
Hands all on you like a flute  
Know the game and ain't shit changed, we the same and that's the truth  
Now it's only one solution

Know the pool stay heated  
Go on, dip your feet in  
We could split this bean up  
Let it get you even  
Light up that tree and you'll be back again  
Got you in that bag again, yeah  
Said you on one  
I want some  
Rockin' the boat  
Try not to slip, ride like a pro  
I got that ass on lock with the bow  
Get up behind you, girl, and hit them folks  
Jump off the ropes, want all the smoke, yeah (Oh, oh)  
And this not  
This ain't my lane to go downtown, woah  
I know you down to get some Crown, woah  
Love that taste, you got that loud  
I'm sure my neighbors know that sound (Oh, oh)

Yeah  
It's 'bout that time that we should slide, just let me drive, I know you worth
