Kid Ink

I swear if bad girls had a team  
You'd be the mascot and the star player  
You got skills baby that I never seen  
You tryna ball, you could be my star player  
Star... you can be a star  
Everything will change if you'll be my star player  
Star... you can be a star  
I can put you in the game, come and be a star player

I said if bad girls had a team  
You'd be the MVP of the league  
And everything ain't always what it seem  
In the dark, it ain't hard, I can tell you a freak

Just come with me and you could be yourself  
I can lend a hand if you need the help  
So take another shot, let it roll  
Game hitter, show em what you've been trainin for  
And we can win it girl, tell me that you in it  
I've been scoutin for a minute and you the one that I'm feelin up  
Every time you walk in the building then you steal the show  
I just got a feeling I can bring a side out that you didn't know

I swear if bad girls had a team  
You'd be the mascot and the star player  
You got skills baby that I never seen
