

## First World Goblins

Kid Kapichi

I'm runnin' late in the rain  
And there's no sugar in my coffee again  
Tryna find someone to blame  
Get me the manager and give me your name  
Cause it's so damn hard  
I feel like shopping but I can't find my card  
It's so damn hard  
They're taking pictures but they caught me off guard

Ain't it hard not to get what you want all the time  
Yeah ain't it hard not to get what you want all the time  
I know you got your first world problems baby I've got mine  
Yeah ain't it hard not to get what you want all the time

There's nothing on the TV  
I scroll through Netflix for an hour of three  
The biscuit fell in my tea  
Why do these bad things always happen to me?  
Cause it's so damn hard  
I feel like drinking but my friends are all barred  
It's so damn hard  
And there's no money in my birthday card

Ain't it hard not to get what you want all the time  
Yeah ain't it hard not to get what you want all the time  
I know you got your first world problems baby I've got mine  
Yeah ain't it hard not to get what you want all the time

Didn't you learn in school that you can't have it all?  
Didn't you learn in school that you can't have it all?  
Didn't you learn in school that you can't have it all?  
Didn't you learn in school? Didn't you learn at all?

Ain't it hard not to get what you want all the time  
Yeah ain't it hard not to get what you want all the time  
I know you got your first world problems baby I've got mine  
Yeah ain't it hard not to get what you want all the time

Ain't it hard not to get what you want all the time  
Yeah ain't it hard not to get what you want all the time  
I know you got your first world problems baby I've got mine  
Yeah ain't it hard not to get what you want all the time
