

Make It On Your Own

Kid Kapichi

His hands are firmly on the steering wheel
Sunglasses shining like they're stainless steel
Windows down
Radio up loud

He said he bought it new but won't admit
His daddy got it from the dealership
Private plates
Vorsprung dirch tecknik

Do do do. Nobody does it like you do do do
Spending their money makes you feel so good
Feel so good

You don't care what it takes
You could never make it on your own
You don't care what it takes you could never make it on your own alone, make
it on your own

She thought about a job but had her doubts
She got distracted skiing in the alps
Country club
Tropical retreat

Now off to Monte Carlo then Capri
She never made it past the duty free
Prada bags
Shoes from Givenchy

Do do do. Nobody does it like you do do do
Spending their money makes you feel so good
Feel so good

You don't care what it takes
You could never make it on your own
You don't care what it takes you could never make it on your own alone, make
it on your own

You've got a new paint job
So superior
Cocaine white
With a blood interior

Snakes and fakes and fakes and snakes

You don't care what it takes
You could never make it on your own
You don't care what it takes you could never make it on your own alone, make
it on your own

You've got a new paint job
So superior
Cocaine white
With a blood interior
