

# Puppet Strings

Kid Kapichi

You're playing with my puppet strings  
My arms and legs are bound  
And it makes sense cause I hardly move  
When you're not around

You're playing with my puppet strings  
You'll play until you're bored  
And it makes sense cause you only ring  
When you feel ignored

And all this time I found out I was being used  
Well it turns out I kinda like the way it feels  
And all this time I found out I was being used  
Well it turns out I kinda like the way it feels

You're playing with my puppet strings  
My arms and legs are bound  
And it makes sense cause I hardly move  
When you're not around

(Ooh)

Read my mind you're looking for another clue  
Well take my hand and lead me to the other room  
And all this time I found out I was being used  
Well it turns out I kinda like the way it feels like  
I've let myself down, it feels like a meltdown

It feels like, feels like, it feels like

And all this time I found out I was being used  
Well it turns out I kinda like the way it feels  
And all this time I found out I was... being used  
(Maybe that's alright)  
It feels like  
(Maybe it's alright)  
It feels like, it feels right!
