

Thugs

Kid Kapichi

The computers and the phones and the TVs in your homes are all bugged
And every time we kick up dust, every time we cause a fuss, they call us thugs

They call us thugs
Every time we cause a fuss, they call us thugs
Every time we kick up dust, they call us thugs
Every time we cause a fuss, they call us thugs

You want a war, we'll give you war
You want a fight, we're gonna fight back
You send the bailiffs to our door
You're gonna bark, we're gonna bite back, fight back
They call us, they call us thugs

When they rip away our rights, split the country till it fights for too long
When you've finally had enough, if you call them on their bluff, then you're wrong

They call us thugs
Every time we cause a fuss, they call us thugs
Every time we kick up dust, they call us thugs
Every time we cause a fuss, they call us thugs

You want a war, we'll give you war
You want a fight, we're gonna fight back
You send the bailiffs to our door
You're gonna bark, we're gonna bite back, fight back
They call us, they call us thugs

If you're aching and you're old, well, that's just tough luck
If you're dying, if you're cold, well, that's just tough luck
And if you bought the lies they sold, well, that's just tough luck
Yeah that's just tough luck

You want a war, we'll give you war
You want a fight, we're gonna fight back
You send the bailiffs to our door
You're gonna bark, we're gonna bite back, fight back
You want a war, we'll give you war
You want a fight, we're gonna fight back
You send the bailiffs to our door
You're gonna bark, we're gonna bite back, fight back

You blame our problems on the poor
You fan the flames and we don't like that
Now look who's knocking at your door
You're gonna bark, we're gonna bite back, fight back
You blame our problems on the poor
You fan the flames and we don't like that
Now look who's knocking at your door
You're gonna bark, we're gonna bite back, fight back
They call us, they call us thugs
