

# Rain, Rain

Kid Quill

One, two, one two three

I wish that every cloud rain champagne  
Good chances and chum change  
Turn all my buzz kills into good things  
Shouts to my campaign  
Every single fan on my fanpage  
I had to go on tour and steal me some cause crime pays  
You know my little sister got mood swings  
But if she sad for more than three days I might rampage  
Still the same me from the first album I can't change  
Ah damn my microphone got tear stains  
But I cannot complain though  
I don't mind the rain though  
Even in a hurricane, I'll be in the same boat  
Fighting with the same folks  
Sharing all my raincoats  
If you talking 'bout me start with the good parts  
Cause I got all the love for you

You know I got all the love for you  
Everything will be fine rain or shine  
You know I got all the love for you  
You know I got all the love for you

Okay my momma don't dance, daddy don't rock 'n roll  
I don't know where I got it from cause I love to do both  
I had too much to dream I need a tinier dose  
I always go with my gut, yeah I don't go with the flow  
Yeah I'm inspired  
This feel like a cool breeze, ice cube, campfire  
Go bring in the soul choir  
You know that I got so much love I would never feel empty  
I drive my old car like it's a Bentley  
I'm in it singing "rain rain go away  
Come again another day, please make it next week  
I got all my plans made"  
What I wouldn't do for love, shoulder shrug  
Ain't nobody above  
Because I got all the love for you

You know I got all the love for you  
Everything will be fine rain or shine  
You know I got all the love for you  
You know I got all the love for you

I wish that every rain cloud rain champagne  
I be in a good mood for the whole day  
Money on trees I'm a go find shade  
Hoping that the wind blow some my way  
I wish that every rain cloud rain champagne  
I be in a good mood for the whole day  
Money on trees I'm a go find shade  
Hoping that the wind blow some my way  
Rock

Rain, rain, go away

Won't you come again another day

Rain, rain, go away  
Won't you come again another day

Rain, rain, go away  
Won't you come again another day

Rain, rain, go away  
Won't you come again another day
