

Simple Things

Kid Quill

I feel like a walk outside just saved my life
Like a high-five just made my night
When life's hard it's the simple things right
Right?

Bitch don't pause my fucking music
Is you dumb is you stupid
We just kids, Please excuse us
We might get this shit all wrong

Like why the fuck I do this
Falling in love with strangers
Reassurance when we're clueless

We like orange juice in our André
Thinkin' bout you on my Sundays
Playing that throw back Kanye
Finding money in the pocket of my laundry

I'm sayin' that I took a stroll instead of a scroll
I saw what I saw, I wrote what I wrote
Then came back inside
And looked in the mirror like that's how it goes

I'm taking a stand no lemonade
My baby is sweeter than minute maid
808's and the treble clef
I like all my beats handmade

I meditate and play Jay-Z
And I know it might sound crazy
But this sidewalk just saved me
Does anybody have fun

Does anybody have fun like they used to
Cause I'm about to make my own

Home for the summer
Hope my plug got the same number

I feel like a walk outside just saved my life
Like a high-five just made my night
When life's hard it's the simple things right
Right?

I feel like a walk outside just saved my life
Like a high-five just made my night
When life's hard it's the simple things right
Right?

I feel like a walk outside just saved my life
Like a high-five just made my night
When life's hard it's the simple things simple things simple things
Right?
