

Cold and Empty

Kid Rock

Mabe ive been on the road to long
Livin my life thru these songs
I guess lovin a music man
Really wasnt in your plans
Does it matter if im sorry again
And why should i apologize
You knew all along this was my life
You know my ins and outs
All my fears and doubts
Its the life i love
But its you i cant livew without

And this whole world seems
Cold and empty
Someone please turn on the lights
Lord if theres an angel you could send me
I could use one here tonight

Now where am i supposed to go
My only home was in your soul
I know that i cant stay here
And drown in a pool of tears
Should i pack my pride
And face this life alone

And this whole world seems
Cold and empty
Someone please turn on the lights
Lord if theres an angel you could send me
I sure could use one tonight

Mabe its me whos cold and empty
And in my darkness i cant see the light
Please god if theres an angel
You could send me
Cause theres one missin from my life

You are my heart, you are my soul
Wherever you are, that where i go
You know my ins and outs
All of my fears and doubts
Its the life i love
But its you i cant live without
Yes its the life i love
But its you i cant live without
The life i love
The life i love
But its you i cant live without
