

# Cold Beer

Kid Rock

Well, I'd turn on the radio  
If they were playing songs  
Instead of talking politics  
How everything is going wrong

Yeah, I heard somebody popped too many pills  
Man, it must be tough having money and living in Beverly Hills

Well, just give me some cold beer  
That's all I need  
I'll stir up some fire logs  
And the set the campfire ashes free  
Into the sky (into the sky)  
Watch 'em dance with the fireflies (fireflies)  
Hanging around (shoop), knocking 'em down (shoop)  
And tossing cans into the fire

Yeah, tonight I think I'll just kick up my feet  
And get me some cold beer, that's all I need

There ain't nothing on the TV  
But the signs of war  
All the talk about global warming  
Keeps on heating me up to the core

Yeah, I'm sick and tired of the lies they're trying to feed  
And we need some change and it might seem strange  
Instead of taking a knee

Just give me some cold beer  
Of sarsaparilla tree  
And I'll stir up some fire logs  
And the set the campfire ashes free  
Into the sky (into the sky)  
Watch 'em dance with the fireflies (fireflies)  
Hanging around (shoop), knocking 'em down (shoop)  
And tossing cans into the fire

Yeah, tonight I think I'll just kick up my feet  
And get me some cold beer, that's all I need

(Shoop) there's a campfire (shoop) burning bright  
Somewhere outside (shoop) of town (outside of town)  
(Ah, shoop) if you're not looking for love tonight (shoop)  
And you just wanna hang around

Well I got some cold beer  
And some Swisher Sweets  
I'll stir up some firelogs  
To set the campfire ashes free  
Into the sky (into the sky)  
Watch 'em dance with the fireflies (fireflies)  
Hanging around (shoop), knocking 'em down (shoop)  
And tossing cans into the fire

Yeah, tonight I think I'll just kick up my feet  
All alone in moonlight without you next to me

Give me some cold beer  
That's all I need
