

## Fred

**Kid Rock**

I had a realization of God, I saw God  
And umm, it's not a face or a figure or anything  
It was a presence, umm the woods  
(all natural) God is all natural  
The sun, the universe, everything  
You, me were part of God, were part of God  
It was an incredible feeling  
And to use acid is religious for me
