

Never Enough

Kid Rock

Never enough money in the bank
There's never enough gas in the tank
Can you feel me?
Can you hear me?
There's never enough bullets in the clip
There's never enough whiskey on your lips
Is there baby?
Don't it drive you crazy?

Never enough, never enough
Flame in your eyes and fire in your touch
The stronger the drug, the longer the rush
When it comes to your love, too much
Ain't never enough

There's never enough powder on the plate
There's never enough time when you're late
But we keep running
We keep gunning

There's never enough, never enough
Flame in your eyes and fire in your touch
The stronger the drug, the longer the rush
When it comes to your love, too much
Is never enough

There's never enough friends when you're down
There's enough love to spread around
I don't know why but I wanna testify, yeah

There's never enough, never enough
Flame in your eyes and fire in your touch
The stronger the drug, the longer the rush
When it comes to your love, too much
Is never enough

Is never enough (never enough)
Is never enough (never enough)
Is never enough (never enough)
