

# Rock N Roll Pain Train

Kid Rock

**G**

15 years on this lonely road

I paid my own way I carried my own load

**C**

I never asked too much from no one

**G**

I was much too proud

**DC**

**G**

All I ever wanted Was to play music for A sold out crowd

**G**

Bitches, money fame They say I had it all

**C**

6 foot 1 I walked around like I was 10 feet tall

**G**

Did you see me shine

**D C G**

Where the hell where you now Detroit city back in 99  
Stoned out of my mind

**C**

On that rock-n-roll pain train

**G**

I had to slow things down

**C**

I live out in the woods now

**D**

It helps me keep my feet on The ground

**C**

Lifes been good to me so far

**G**

Hope its been kind to you

**D**

Stand strong in the storms of life

**C**

**G**

The sun will always shine on you

Now Ive been rollin on love n lust

I ride around on this million dollar bus

But this is just a bus man

I cant sleep at night

Man I miss my babies

And Id really like to fuck my wife

But she aint there tonight

Ive seen this train wreck

Time and time again

I felt its pain

Ive seen it take my friends

Youve got to stop and take a look man

Or life will pass you by

Get your guitar and a good song

Thats all you really need to ride
