

# Roll On

Kid Rock

I love it when you play it like that  
Come on, play

Sittin' here alone  
I'm lookin' back on where I've roamed  
And laughin' how I swore  
I'd win and not get burned

Left my family, left my home  
I worked my fingers to the bone  
And there was not a stone  
I did not leave unturned  
And I was havin' a good time

Roll on, roll on roller coaster  
We're one day older and one step closer  
Roll on, there's mountains to climb  
Roll on, we're on borrowed time  
Roll on roller coaster, roll on tonight  
Roll on tonight, yeah

Money and success  
I don't complain about the stress  
I wanted this and now it's here  
So I don't bitch

And I swear that time's a trick  
It disappears in, oh, so quick  
Man, I was just sixteen  
And now I'm starin' at thirty-six  
But I'm still havin' a good time  
Good time

Roll on, roll on roller coaster  
We're one day older and one step closer  
Roll on, there's mountains to climb  
Roll on, we're on borrowed time  
Roll on roller coaster, roll on tonight  
Roll on tonight

And I know it's hard to see  
With the sun in your eyes  
But one day you're gonna say  
I saw the light

And now headin' for the hill  
And I just cannot wait until  
My children grow up to  
Have children of their own

And I'll be telling them about  
The times I turned the party out  
And how I stood against  
An army all alone

Drinkin' wine and stayin' high  
And realized it couldn't last

And how I turned myself around  
And went down another path

And the signs we must observe  
When life's changes do occur  
But most of all I'll tell them  
Just how proud I am of them  
And always have a good time  
It's all love and good times  
Let's all have a good time, yeah

Roll on, roll on roller coaster  
We're one day older and one step closer  
Roll on, there's mountains to climb  
Roll on, we're on borrowed time  
Roll on roller coaster, roll on tonight  
Roll on tonight, roll on tonight  
Roll on tonight, roll on tonight

Roll on, roll on  
I want you to roll, roll with me, babe  
Roll with me, babe  
Roll on with every town, yeah

Roll on, roll on roller coaster  
We're one day older and one step closer  
Roll on, there's mountains to climb  
Roll on, we're on borrowed time

Roll on, roll on roller coaster  
We're one day older and one step closer  
Roll on, there's mountains to climb  
Roll on, we're on borrowed time

Roll on, roll on roller coaster  
We're one day older
