

So It Go

Kida Kudz

I just got your message at the bleep
Will you tell me something that I didn't know
Or will you tell me something that I knew
Talk about the feelings that I didn't show

When I be with my brothers in the cut
I been turnin' up and tryna simmer down, down
You can roll a ting or light it up
Tryna spend the summer in the sun

You can talk 'bout always
Don't think about forever
You can play some Sade
We're changing like the weather
Tell me something that I didn't know

So it go
Yeah, yeah
So it go, oh
So it go
Yeah, yeah
So it go

So it go, you know how it go
So it go, you know how it go
So it go, you know how it go
In the summertime and we're sippin' Malibu
So it go, you know how it go
In the summertime and we're sippin' Malibu
So it go, you know how it go
In the summertime and we're sippin' Malibu
Gyal, you know I love you
And this is how it go
Sex all night thing, you know how we do

You don't wanna test my stylee
I am flying
It's a good life, the sun's out and I'm vibesing
In a Benzo, fly whips, yeah, we ridin'
No go leave me alone, 'cause I'd be dyin'

No go leave me alone, 'cause I'd be dyin'
You better answer the phone when I'm diallin', yeah, yeah
You didn't know I could sing, I'ma make you my queen
And I'ma give you everything, girl

You can talk 'bout always
Don't think about forever
You can play some Sade
We're changing like the weather
Tell me something that I didn't know

So it go, you know how it go
So it go, you know how it go
So it go, you know how it go
In the summertime and we're sippin' Malibu
So it go, you know how it go

In the summertime and we're sippin' Malibu
