

Bad Things

KiDi

Hola Sugar Papi
Hmm hm hmm

Sit on my face
I wanna know what it feels like
Steady base
We got all night
You say I'm thirsty
One letter, you strip on me yeah
Oh you know I've been down down down
For a long long time
Just say the word and now
I'll get down to business

Oh
I see angels every time we're making love
They'd be singing the symphony
Oh
I feel like I'm in heaven
Every time I go deep inside your walls hunny
Oh

Oh I trust you so I thrust you
Love you and I hate you
Fussing and fighting
And cussing and biting
Break up, then we make up
Then we back to making love again

Oh you know I wanna do
Bad things to you
Oh you know I wanna be
In a place that's soft and warm
Oh you know I wanna do
All the little things I know that you like
Baby what do you like
Let's just turn off the lights
And take it slow

Give me brains and I still can't think
So sloppy and I feel like I go sink
Red Bull and Henney, girl I know that's your drink
Tie you up, girl I know that's your king
That Hennessy was the end of me
I say, never again, never again
Let's leave the club, meet me at the car
Let me take you home and put your face
Face down on this pillow
You know the deal o
Let me kiss your lips
The ones down below
Oh let them know that you're rocking with a hero
Oh you know it, you know it, oh I
Oh oh oh

Oh I trust you so I thrust you
Love you and I hate you

Fussing and fighting
And cussing and biting
Break up, then we make up
Then we back to making love again

Oh you know I wanna do
Bad things to you
Oh you know I wanna be
In a place that's soft and warm
Oh you know I wanna do
All the little things I know that you like
Baby what do you like
Let's just turn off the lights
And take it slow

Hola Sugar Papi
