Let's go  
Sugar daddy  
Uh huh  
Oh

I'll go to war for you  
Love you a soldier  
Release my mind  
I desire your aura  
Wanna give you motion  
Steeper than the ocean, hmm  
Let me get you high  
Make you timeless like diamonds on your neck

You make me wanna lose it lose it lose it  
Body when you move it move it move it  
Got me going dumb like stupid stupid  
Every time you do it do it do it  
Got me excited  
One look at you and I'm ignited  
You're like a choir, we can move in silence  
Chilling publicly, eat it up in private

Baby I'm trying to break through  
Love you like a typhoon  
I love you like cyclone  
You like cyclone  
I'm trying to be around you  
You wanna be around me  
Yeah I love you like cyclone  
You like cyclone

You're my pina colada  
Don't wanna be sober yeah  
If you are the ganja  
Then I am the smoke ah

You make me wanna lose it lose it lose it  
Body when you move it move it move it  
Got me going dumb like stupid stupid  
Anytime you do it do it do it  
Got me excited  
One look at you and I'm ignited  
You're like a choir, we can move in silence  
Chilling publicly, eat it up in private

Baby I'm trying to break through  
Love you like a typhoon  
I love you like cyclone  
You like cyclone  
I'm trying to be around you  
You wanna be around me  
Yeah I love you like cyclone  
You like cyclone
